Dreer's Quarterly Wholesale Price List

JANUARY—MARCH, 1905.

We take pleasure in presenting to the Trade this, the first issue of our Wholesale Price Lists for 1905. New Crop Flower and Vegetable Seeds are, with few exceptions, now in stock and ready for distribution, and we are confident that we can serve you better than ever before. In the Plant Department our stocks of decorative, hardy and other plants are very extensive and in splendid condition, comparing favorably to stock distributed by us in the past. We trust you will favor us with a share of your patronage which we promise will be given the most careful attention.

LOW EXPRESS RATES ON PLANTS, BULBS AND SEEDS. We are shipping by express lines, to all parts of the country, goods, packed in closed boxes, at a reduction of 20 per cent. from regular rates of merchandise. Prepaid packages of seeds, plants and bulbs are carried to California and all distant points at the rate of 8 cents per pound.

By our careful and thorough system of packing, we **Guarantee Safe Delivery** of plants and perishable goods, when ordered to be sent by **Express**, and we always ship this way unless we have positive instructions to the contrary, and **when sent in any other way, are solely at purchaser's risk.**

PRICES.—This list cancels all previous offers. The prices quoted in this list are net, and subject to no discounts. Articles offered in our Retail Catalogue or Garden Book and not offered in this list will be supplied at retail prices less the following discounts, viz.: Vegetable and Flower Seeds, in packets, Bulbs and Plants, 33½%; Small Tools and Insecticides, 10%.

No order for **PLANTS or BULBS** amounting to less than \$1.00 will be filled and packed at wholesale prices. Orders received from the trade amounting to less than \$1.00 will be charged for at retail prices, less 10 per cent.

TERMS OF BUSINESS.—Unknown correspondents desiring to open an account will please furnish reference to parties in the trade with whom they have had credit relations, otherwise cash must accompany order.

Remittances should be made by Post-Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

All goods are offered subject to being unsold on receipt of order, and we reserve the right to advance prices without notice.

No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices in Philadelphia.

In filling out your order always give **Shipping Directions**, and write **Name and Address** Distinctly on each and every order.

NON-WARRANTY.—We wish it to be distinctly understood that although we continue to take all possible pains to supply only New, Genuine and Unadulterated Seeds, Plants and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds, Plants or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

An Invitation. We cordially invite you to visit our Greenhouses and Nurseries at Riverton, N. J., one of the most interesting commercial places in the world. Open to visitors at all times, except Sundays. Riverton, as can be seen by the map, is situated on the New Jersey side of the river Delaware, nearly opposite the city of Philadelphia, from which it can be reached by frequent trains and trolley.

DREER'S RELIABLE GENERAL LIST of FLOWER SEEDS

For full descriptions and illustrations see our **Garden Book** (retail catalogue) for 1905. Should you not have a copy we will be pleased to mail one on application.

We give close attention to the Flower Seed Department, our constant aim is to procure the **very best strains obtainable**, both of home and foreign growth, and no pains or expense are spared with this object in view. We call special attention to our particularly fine strains of Asters, Cinerarias, Cyclamens, Mignonettes, Pansies, Petunias, Primulas, Stocks, Verbenas, etc., etc. They are now grown by the most critical florists, private and professional gardeners in the country and are acknowledged to be superior in all respects.

NOTE.—We do not furnish less than Trade Packets except where noted. Fractions of ounces charged for at a slight advance over the ounce price. Where small quantities are wanted retail packets can be supplied at a discount of one-third from retail catalogue prices. Prices in this list are net.

GIANT WHITE COMET ASTER

DREER'S SUPERB LATE BRANCHING ASTER

DREER'S SUPERB ASTERS.

We take special pains to secure only the choicest Asters, and nothing better in quality can be had at any price; beware of low-priced stock, it is liable to be low grade at the same time.

For early flowering Queen of the Market is used almost exclusively. Our Superb Late Branching is in most demand for late, while for mid season Comet, Pæony Perfection, Branching Pæony Flowered, Victoria and Washington, are all equally desirable. The American varieties are all extra fine.

American Grown Asters.

The following varieties stand at the head of Asters for the American climate. The stocks were all grown under our own supervision, and we know that the quality in every case is better than can be procured from most sources.

NOTE.—In Asters, as in other Florists' Flower Seeds, **Quality** is our first consideration, and we feel sure that nothing finer can be had at any price. We especially recommend our strains of American Grown Asters.

ASPARAGUS PLUMOSUS NANUS

Asparagus.

The two varieties here offered are wanted in quantity by every florist, always in strong demand. The stock we offer is extra fine greenhouse grown, and not to be compared with that grown in the open air and of doubtful purity.

Plumosus nanus (true). \$1.00 per 100 seeds; \$7.00 per 1000 seeds; 4000 seeds for \$25.00.

Sprengeri. 25 cts. per 250 seeds; 75 cts. per 1000 seeds; \$3.00 per 5000 seeds.

Dahlia.

Dahlias have come to the front with a bound as cut flowers, especially the single sorts. They are as easy to grow from seed as Nasturtiums. They need a good rich soil, a fair amount of moisture and lots of sunlight. They will bloom if sown out of doors as late as June, but are better when given an earlier start indoors or in a hot bed.

DREER'S SUPERB DOUBLE-FRINGED PETUNIA

Petunia.

Our Riverton grown strain of Double and Single Fringed Petunia have long been celebrated as the best on the market. We keep continually culling out and hybridizing and thus maintain the high standard. We frequently test stocks from the world's best growers and can say without fear of contradiction that our own strain is by far the best to be had at any price.

Note—We would especially call the attention of every florist who grows double Petunias from seed that all the smallest and weakest seedlings should be saved as they usually produce the finest double flowers. The same is true of the singles the strong seedlings being inclined to "weediness."

Dreer's Superb Double Fringed. Our own unrivaled strains.

Every seed saved at Riverton, 75 cts. per 500 seeds; \$1.50 per 1000 seed.

Double Fringed Imported. Seeds are saved by one of the foremost

European growers; the best that can be had abroad; \$1.00 per 1000 seeds.

Dreer's Superb Single Fringed. All our own saving from the

finest large fringed flowers. 50 cts. per tr. pkt.; \$1.25 per $\frac{1}{8}$ oz.;

\$2.00 per $\frac{1}{4}$ oz.

CALADIUM ESCULENTUM

Gladiolus. Mixed Varieties

We exercise great care in the making of our mixtures, they are not merely surplus lots thrown together but a careful blending of good sorts which can not fail to give full satisfaction, we especially recommend Groff's Hybrids to those who want something better than the usual run.

All selected first-size bulbs. We do not handle "seconds"

For full descriptions and illustrations see pages 106 to 158 of our Garden Book (Retail Catalogue) for 1905. All shipments of plants are made by express unless we have positive instructions to the contrary, and we guarantee safe arrival when shipped in this way. When sent by any other method they travel solely at purchasers' risk.

ANTHURIUM

Abelia Rupestris.

A choice dwarf, growing small shrub of slender graceful habit and small dark green foliage, hardy as far north as Philadelphia, but requires protection in more northern latitudes. It produces during the entire summer and fall months, heather-like waxy white flowers, tinted with lilac in such quantities as to completely cover the plant. A most attractive plant that is always admired and which we cannot recommend too highly.

The New Fern-dish Asparagus.**Asparagus Plumosus Compactus.**

In this we have a plant that has long been wanted—a dwarf, compact-growing *Asparagus* which does not exceed six inches in height when fully grown, and one of the most graceful and effective plants for filling Fern-dishes for table decoration ever introduced.

It is a hybrid between *A. plumosus nanus* and *A. tenuissimus*, and in the formation of its foliage, it is intermediate between these two handsome varieties, and forms a plant almost globular in outline and most symmetrical in appearance. Its habit of growth is fairly well shown in the illustration.

2¼-inch pots. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Asparagus Myriocladus.

An introduction from South Africa, and probably the most attractive species yet introduced. It was very aptly described by a visitor to our nursery as "an aristocratic *Asparagus Sprengeri*," from which, however, it is entirely distinct, both in its habit of growth, as well as in the formation of its fronds. The plant is of an almost erect habit of growth, producing fronds from two to four feet long, which, when just unfolding, are of a peculiar metallic bronze, from which they change to a golden-green, finally maturing a rich emerald-green. A plant with fronds in the various stages of development is most attractive.

Azaleas for Easter.**Stock Limited.**

On account of Easter coming so very late (April 23d,) a season of the year when our regular spring shipments demand our full attention, we have decided to prepare no flowering Easter stock, and with this in view we are not carrying our usual heavy supply of Azaleas, and customers will do well to cover their needs quickly. The principal sorts now in stock are *Mad. Van der Cruysen* and *Bernhardt Andrea Alba*, the two best late flowering varieties, with a limited number of a few other late flowering sorts; these two varieties we can supply in any proportion desired, but the selection of the other sorts must be left to us.

We offer three sizes only:

SINGLE TUBEROUS-ROOTED BEGONIA

Tuberous-Rooted Begonias.

Through careful selection every season sees an advance in the quality of these beautiful Begonias. Our stock is grown for us by one of the most eminent specialists in Belgium whose strain is celebrated for its superior size, rich coloring, form and substance.

The price is as low as is consistent with good quality; the retail florist who is growing a few hundred bulbs for his spring trade, will find many of the *cheap strains now offered dear at any price*. We offer but one quality, and that is the best.

Single Varieties in Colors. Scarlet, crimson, white, rose, yellow and orange. 40 cents per dozen; \$3.00 per 100; \$25.00 per 1000.

Single Varieties in Choice Mixture. 35 cents per dozen; \$2.50 per 100; \$22.00 per 1000.

Double Varieties in Colors. Scarlet, rose, white and yellow. 65 cents per dozen; \$5.00 per 100; \$40.00 per 1000.

Double Varieties in Choice Mixture. 50 cents per dozen; \$4.00 per 100; \$35.00 per 1000.

New Hybrid Tuberous Begonias.

Duke Zeppelin and Lafayette.

These two gorgeous Begonias were beautifully shown in colors on the cover of our Garden Book for 1904. They were sold in large numbers and gave universal satisfaction. Both varieties are of strong vigorous growth, but dwarf in habit, never exceeding 8 to 10 inches in height and throw up numberless stems of full double flowers from early in July until cut down by frost. A continuous display of color which is simply dazzling in brightness and which is not equalled by any other flower.

Duke Zeppelin. Pure rich scarlet. Strong bulbs, 15 cents each; \$1.50 per dozen; \$12.00 per 100.

Lafayette. Brilliant crimson scarlet. Strong bulbs, 25 cents each; \$2.50 per dozen; \$18.00 per 100.

Frilled Tuberous-Rooted Begonias.

A most unique form, with very large single flowers which are entirely distinct, the petals being wavy and beautifully frilled on the edges similar to the newer forms of Petunias. Strong bulbs in carmine, scarlet, orange, salmon, white, yellow, pink and bluish. 25 cents each; \$2.50 per dozen.

Begonia Gloire de Lorraine.

We are now booking orders for Begonia Gloire de Lorraine, which we are prepared to deliver in stock of a superior quality during June in plants which can readily be grown into a six or seven-inch pot for autumn and winter sales.

Prices for delivery in June. \$2.00 per dozen; \$15.00 per 100; \$140.00 per 1000.

CANNA. MRS. KATE GRAY

New Cannas of Special Merit.

The following are introductions of 1903 and 1904 and have had a careful trial with us. We found them of exceptional merit and most desirable additions to any high-grade collection.

Dr. Robert Funcke. Very large bright vermilion overlaid with carmine, in large, heavy dense spikes; a very bright showy variety of erect habit, with green foliage; 4½ feet. 35 cents each; \$3.50 per doz.

Frau Marie Nagel. An extremely large flower of a faint sulphur color bleaching to a pure white, flowers measuring frequently 5 inches across, in large dense spikes; very conspicuous when planted among high-colored sorts; 4 feet. 50 cents each; \$5.00 per doz.

Grand Chancellor Bulow. Beautiful deep scarlet overlaid with dark maroon; very large spike densely covered with flowers of large size and good substance, thrown well above the handsome green foliage; 4½ feet. 35 cents each; \$3.50 per doz.

Hofgartner Hoppe. A light bronze-leaved variety of exceptional merit with immense spikes of large flowers, orange-scarlet at base merging gradually to the extremity of the petals into a beautiful deep carmine, with numerous faint darker spots; 4½ feet. 35 cents each; \$3.50 per doz.

James H. Veitch. Very large flowers with perfectly formed well-rounded petals of a rich bright carmine-scarlet and bronzy foliage; 5 feet. 35 cents each.

King Humbert. In this grand new Italian Canna we have a combination of the highest type of flower with the finest bronze foliage. Its flowers, which, under ordinary cultivation, will measure 6 inches in diameter and which are produced in heavy trusses of gigantic size, are of a brilliant orange-scarlet with bright red markings; while the foliage is broad and massive and of a rich coppery-bronze with brownish green markings, bold and effective; 5 feet. 35 cents each; \$3.50 per doz.

Mont Blanc. A grand acquisition, being almost a pure white, with large, well-shaped flowers which are produced in great profusion and contrasts well with the high-colored sorts; 3½ feet. 35 cents each; \$3.50 per doz.

We will furnish one each of the seven new Cannas for \$2.25.

Three "Exposition" Cannas.

Two beds of Cannas in our display at the St. Louis Exposition which attracted much attention throughout the season were planted exclusively with the three varieties offered below. We consider them the best bedding Cannas now in cultivation.

Jean Tissot. One of the brightest of the very large flowered Cannas. Color intense brilliant vermilion with bright orange shadings; a color that can be seen as far as the eye will carry. It is of strong uniform growth about 5 feet high with massive green foliage. 20 cents each; \$2.00 per doz.; \$15.00 per 100.

President Meyer. A glorious Canna which on account of its large flowers which are in trusses of immense size and of a pleasing rich cherry-carmine color, produces a really gorgeous effect; it has bronzy foliage and grows about 4 feet high. 20 cents each; \$2.00 per doz.; \$15.00 per 100.

Rubin. The ruby-carmine flowers of this are not large, but are produced in such profusion and are so intensely rich and glowing, which, combined with the dark bronzy-green foliage, make it one of the best bedding varieties in our collection. 15 cents each; \$1.50 per doz.; \$10.00 per 100.

Orchid Flowered Cannas.

The following are the best and most distinct of this type.

Allemania. Dark salmon with golden markings. 50 cts. per dozen; \$4.00 per 100.

Austria. Pure canary-yellow; with few reddish dots in the centre. 50 cts. per dozen; \$4.00 per 100.

Italia. Bright orange-scarlet, with broad golden-yellow border. 50 cts. per dozen; \$4.00 per 100.

Mrs. Kate Gray. The most robust-growing Canna in our collection, with broad and massive foliage of a bright glossy green; gigantic trusses of flowers, orange-scarlet overlaid with gold. \$1.25 per dozen; \$10.00 per 100.

Pennsylvania. Flowers fully 6½ inches in diameter, of an intense vermilion-scarlet, overlaid with orange; foliage rich green. \$1.25 per dozen; \$10.00 per 100.

Bronze Canna. "Black Beauty."

In the dark leaved varieties none attracts more attention or proves so effective as Black Beauty. Its flowers are insignificant, but its foliage is of the richest bronzy purple shaded with black, the edges being peculiarly crimped. Our large stock enables us to offer it at a low price. \$1.00 per dozen; \$8.00 per 100.

New and Standard Carnations.

New Carnation: Robert Craig. (Ward.) To be Disseminated 1906.

"The King of Red Carnations," the largest, strongest-stemmed, most vigorous, healthiest-growing, most fragrant and the best fancy commercial scarlet Carnation produced to date. Ranks with Enchantress and Fiancee. Comes in heavy crop for Christmas. Just the color of Christmas Holly Berries. An easy doer; anybody can grow it. \$2.50 per doz.; \$12.00 per 100; \$100.00 per 1000. Orders booked now for delivery early in the season of 1906.

New Carnations for 1905.

Cardinal. "The best New Scarlet Carnation" winner of First Prize for 100 Scarlet and S. A. F. Medal and Certificate at Detroit. Only Carnation to receive Certificate at Toronto Exhibition. Price, \$2.50 per dozen; \$12.00 per 100; \$100.00 per 1000.

Eclipse. A grand pink Carnation, lighter in color than Lawson, with no cerise or magenta shadings; a color that withstands the brightest sun's rays without the objectionable shadings and bleaching at the edge of petals. Is a strong, free grower, and of easy propagation. Large 3½-inch flower of a beautiful dark shade of pink. Comes in flower early and produces freely and continuously throughout the season. Has never shown any cropping tendency. Price, \$2.50 per dozen; \$12.00 per 100; \$100.00 per 1000.

Fiancee. Clear pink; a lively, bright, pleasing color, a shade not approached by any known variety of Carnation. Flowers are extremely large, 3½ inches being common; depth, 2 inches and over. One of the earliest and freest bloomers, continues throughout the entire season without any cessation. Price, \$3.00 per dozen; \$12.00 per 100; \$100.00 per 1000.

Fred Burki. A fine white variety, the blooms coming perfect and uniform, averaging 3 and 3½ inches. Stem measures 20 to 30 inches, stiff and erect. A continuous bloomer, perfect calyx, showing no tendency to burst. Is a fine keeper, roots easily and transplants well, very fragrant. Scored 88 points at Detroit Carnation Convention, receiving a certificate of merit. Price, \$2.50 per dozen; \$12.00 per 100; \$100.00 per 1000.

Gibson Beauty. Color, magnificent shade of pink, resembling Ethel Crocker, only a trifle lighter, the whole shading to a very light pink to the outer edge of lower petals, producing a color not yet seen in a Carnation. Price, \$2.50 per dozen; \$12.00 per 100; \$100.00 per 1000.

Richmond Gem. Size of flower 2½ inches; the flower is round, well built up in centre, slightly fringed. Color is a beautiful shade of scarlet, even brighter than Estelle. Stem long and strong, holding the flower up gracefully at all seasons of the year. Habit ideal, no surplus grass, upright in growth and quick to make bud. Plants make large clumps in the field. Roots easy and transplants easy. Certificate of merit A. C. S. at Detroit, also first prize at Indianapolis Show for new Scarlet. Price, \$2.00 per dozen; \$10.00 per 100; \$75.00 per 1000.

"Red Sport" (of Maceo). The color is a bright, clear, pleasing red of medium size, on a stiff, wiry stem of good length; not classed as a fancy but a money maker. The calyx is perfect, its keeping and shipping qualities are the best. It is an early and continuous bloomer, makes no surplus grass, is perfectly healthy and an easy doer. \$1.50 per dozen; \$6.00 per 100; \$50.00 per 1000.

White Lawson. A white sport from the well-known "Lawson," equally as good in every respect. Price, \$2.00 per dozen; \$7.00 per 100; \$60.00 per 1000.

White Swan. A pure white, of fine form and substance. Size 2½ to 3 inches; a profuse bloomer, both early and late. Long stiff stems; does not burst and is a fine keeper. Price, \$2.50 per dozen; \$12.00 per 100; \$100.00 per 1000.

Hardy Pompone Chrysanthemums.

Among hardy perennial plants no others enjoy such universal popularity as the Hardy Pompone Chrysanthemum, and considering the many good qualities with which they are endowed, there is no cause for surprise to see them so extensively cultivated.

Baby. Lemon yellow; the smallest-flowered of all; very dainty.

Blushing Bride. Delicate soft pink.

Danizula. Soft delicate rosy-pink.

Eagle d'Or. A fine golden-yellow.

Fred Peele. Deep crimson, tipped gold.

Flora. Beautiful deep golden-yellow.

Golden Fleece. Clear yellow.

Golden Pheasant. Rich golden yellow.

Globe d'Or. Clear lemon-yellow, shading deeper towards the centre.

Gold Finch. Rich golden-yellow, striped with red.

Gold Nugget. Golden-yellow, inner petals tinged with red.

L'Ami Couderchet. Fine sulphur-white.

Mrs. Vincent. Deep carmine-rose.

Pettulant. Soft creamy sulphur.

Princess of Wales. A fine, large double white.

President. Rich purplish-crimson; of perfect shape.

Queen of Bulgaria. Rich rose-crimson; very double.

Regulus. Terra-cotta or dark tan, of globular form.

Rhoda. Delicate apple-blossom pink.

Rosinante. Blush rose.

Strathmeath. Pretty rose-pink.

Sœur Melanie. Large double white, like a French Marguerite in texture.

Tiber. Crimson-brown, tipped yellow.

Trojan. Maroon, with yellow centre.

Veuve Clicquot. Brick-red, edged yellow.

Any of the varieties of Pompone Chrysanthemums ready in March. 50 cents per dozen; \$4.00 per 100.

Chrysanthemum Frutescens.

The New Anemone-flowered Marguerite or Paris Daisy, "Queen Alexandra."

The single flowering Paris Daisy has, for many years, been a favorite, not only as a cut flower, but also as a decorative pot plant, during the winter months, and we predict for this pretty double-flowered form even a greater future. The flowers are from 2½ to 3 inches in diameter, and of a pure white color; the greater percentage of these coming full double, not unlike an Anemone-flowered Japanese Chrysanthemum, but even the semi-double and single flowers, which appear on the same plant, are very handsome.

Ready February 15th. 20 cents each; \$2.00 per dozen.

California Giant. The best of the large single white varieties.

Etoile d'Or. A large, soft, pure yellow. 60 cts. per dozen; \$4.00 per 100.

Clematis Indivisa.

This is one of the most desirable cool greenhouse climbers. Its flowers are produced in March and April, in panicles frequently 2 feet long, are pure white, and from 1½ to 2 inches in diameter. The flowers can be used to good advantage in a cut state. 75 cents each.

Clivia. (Imantophyllum.)

Miniatum. Strong, 6-inch pots, 50 cts each; \$5.00 per doz.

Clerodendron.

Balfouri. 3-inch pots, \$1.00 per dozen; \$8.00 per 100.

Crotons.

Nothing can excel the beauty and richness of coloring that is found in this class of plants. They are beautiful as pot plants for the conservatory, making handsome specimens for decorative and exhibition purposes, and are now used extensively as bedding plants, for which purpose they are exceptionally well adapted. They should be planted in full sun in a position where they can be liberally supplied with water, which develops the most wonderful coloring in the foliage. We enumerate below a few of the leading varieties, but can supply many other sorts:

Andreanum. Deep green, with yellow and crimson markings.

Aureum Punctatum. Long, narrow foliage, with numerous yellow spots.

Baron James de Rothschild. Olive-green and yellow, changing to brilliant crimson.

Chrysophilla. Large foliage, light creamy-yellow with bright green margin.

Dayspring. Orange-yellow, edged with green and tinged with red.

Evansianum. Tricolored leaves, richly veined and mottled.

Fasciatum. Rich green, with golden-yellow ribs and veins.

Irregular. Long narrow foliage, dark shining green with golden blotches and golden midrib.

Lady Zetland. Long deep green foliage with crimson midrib and edge with golden-yellow veins.

Queen Victoria. Rich golden yellow, mottled with green, midrib magenta changing to crimson.

Veitchii. Bright green, marked and mottled with yellow and crimson.

Weismanni. Dark shining green, golden midrib and edges. Varieties as named above in 4-inch pot plants, 35 cents each;

\$3.50 per dozen.

Mixed varieties not labelled, 3-inch pots, \$2.00 per dozen; \$15.00 per 100.

DAHLIAS.

It is a great pleasure to us to note the remarkable interest in Dahlias during the past few years, and the many letters received from customers expressing their satisfaction and delight at the wonderful improvements which have been shown in the various "Sets" as sent out by us prove to us that our efforts to present not the longest list of varieties but only the best of each respective type has been appreciated. We spare neither time nor expense in testing the new varieties of both domestic and foreign production, and feel justified in claiming that our collection is unequalled, all having been selected for their free and continuous flowering qualities, purity of color, perfection of form, general excellence and adaptability to the most ordinary garden culture.

NOTICE.—All Dahlias except where specified as being supplied in plants are sent out in the form of dormant roots, but occasionally the demand for individual varieties is beyond our anticipation and stocks become exhausted. In such instances we send out strong growing plants, which will give equally as good results as roots.

Superb New Cactus Dahlia Kriemhilde.

The many favorable and profuse comments which we have received from our customers who purchased this beautiful pink Cactus-Dahlia from us during the past two years, convinces us that in selecting it as a frontispiece for our retail catalogue, our choice has been made of what is to-day the most beautiful Dahlia in cultivation, and combining as it does, in color, habit, vigor and freedom of bloom the most perfect points, will make it one of the most popular varieties yet introduced.

Its delicate combination of colors is well reproduced in our plate, a delicate shell pink, shading to white in the centre, an early free and continuous bloomer, with strong long stems, makes it an ideal flower to cut.

We have this season prepared an unlimited stock and offer field-grown roots at 15 cents each; \$1.50 per doz.; \$12.00 per 100.

KRIEMHILDE. THE PINK DAHLIA FOR CUTTING

Fourteen New Cactus Dahlias for 1905.

The varieties comprising this set were selected out of a large number of recent English and continental introductions which were tested by us last summer, and represent the highest development in Cactus Dahlias to date.

Clara G. Stredwick. Orange-salmon shading to yellow in the centre, flowers large with long petals.

Cornucopia. A very large and double carmine-scarlet with long narrow petals; of fine form.

Dr. Bolan. Rich glowing carmine shaded with orange; a fine flower.

Herder. A perfectly formed flower with tubular petals of a delicate rose-pink suffused with cream.

Herzogin Agnes. A free and early flowering scarlet with darker shadings; flowers of immense size.

Jugend. Creamy-white flushed with rose with peculiarly curved petals; novel, attractive, and entirely distinct.

Mars. A brilliant scarlet with orange at base of petals, of beautiful form, large size and very free.

Mrs. A. F. Perkins. Of beautiful form and entirely distinct in color which is sulphur-yellow, each petal being nicely tipped with pure white.

Mrs. H. J. Jones. An immense flower of perfect form of a rich bright scarlet with cream-colored edge, occasionally coming in self colored scarlet, but beautiful in either color.

Professor Dr. Zacharias. A medium sized but perfect yellow variety; very free flowering.

Ruckert. A graceful flower with long petals of a rich cardinal red with deeper shadings.

Ringdove. An attractive flower with long narrow petals, pale pink at the tips, shading to apricot in the centre.

Spotless Queen. Dwarf and free, flowers of medium size, of perfect form and of a pure white color.

Winsome. A fine, pure creamy-white, of good size and perfect form.

The above varieties can be supplied in growing plants (not dry roots); ready April 15th. 25 cents each; \$2 50 per doz.; the set of 14 for \$3.00.

NEW CACTUS DAHLIA, MARS

Eighteen Splendid Cactus Dahlias.*(Recent Introductions.)*

Aunt Chloe. Rich black maroon, the darkest variety in the collection.

Britannia. A deep salmon flesh; fine and free.

Brunhilde. Rich plum color, loosely arranged long petals; an exceptionally fine flower, and very free.

Countess of Lonsdale. A peculiar but pleasing blending of salmon-pink and amber, a color difficult to describe. This is the Dahlia for the million. Flowers freely under all conditions.

Exquisite. Pure orange-scarlet, with salmon shadings; truly lovely.

Gabriel. An improved Arachne, having the same peculiar forms and variations as that interesting sort, but with flowers twice as large; the petals are creamy-white edged with crimson, although it is hardly possible to find two flowers exactly alike on the same plant.

Galliard. Both in form and coloring this variety is perfect, being of a rich, glowing carmine, with long tubular petals; very graceful. (See cut.)

Gen. Buller. Cardinal-red with crimson shadings; each petal tipped with white.

Hunold. Tile red; an immense good flower.

Jealousy. A perfect, clear yellow; fine in every way.

J. Weir Fife. Purplish-maroon; rich and glowing.

J. W. Wilkinson. Rich ruby; a fine-shaped flower.

Mrs. Jowett. Brilliant orange-red; fine.

Rosenhagen. A pleasing shade of salmon-rose, deepening to bright magenta on the edges.

Rosine. Glowing crimson with purplish shadings.

Ruby. Deep vermilion centre, shading to ruby-red at edges.

Volker. A charming free-flowering pure yellow.

GALLIARD

Venus. A miniature or Pompon Cactus Dahlia with small but elegantly perfect snow-white flowers.

Roots, 15 cents each; \$1.50 per doz.; \$10.00 per 100. Set of 18 splendid varieties for \$2.25.

Select Standard Cactus Dahlias.

Arachne. (*The Spider Dahlia.*) Curiously twisted irregular flowers, creamy-white edged with crimson; however varies in color and shape almost in every flower; very interesting.

Austin Cannell. Bright rosy-crimson, shading lighter at the edges.

Bridesmaid. Pale primrose, shading to rosy-lavender at edge; fine form and very free.

Capstan. Soft orange-scarlet, shaded apricot; remarkably free flowering.

COUNTESS OF LONSDALE

Dankward. Dark rose, shading to luminous-carmine in centre; perfect form.

Earl of Pembroke. Bright plum-color; a royal shade.

Firebrand. Rich, glowing vermilion, shading deeper; fine.

Kingfisher. Crimson, suffused ruby-red; petals curled in an elegant irregular manner.

Lady Ed. Talbot. Terra-cotta, shaded salmon.

Mary Service. Apricot, shaded orange, shading to purplish-rose at the tips; a well-formed flower, and a free and continuous bloomer.

Mr. Moore. Deep claret; one of the best dark varieties.

Mrs. J. J. Crowe. Lemon-yellow, long petals; very good.

Mrs. J. P. Clark. A peculiar shade of orange-bronze, each petal tipped with blush; an odd and pleasing color combination.

Niebelungen. Deep carmine, large flower.

Night. Deep chestnut-red, shaded black; very dark.

Pretoria. Vermilion intensified by orange shadings; dazzling.

Primrose Dame. Exquisite primrose-yellow.

Progenitor. Bright carmine, each petal being furcated on the end like a Stag-Horn Fern.

Queen Wilhelmina. Rich, deep chestnut; a fine flower and very free.

Sparkler. Rich, glowing carmine; early and free.

Standard Bearer. Rich, fiery scarlet; very free.

Strahlen Krone. Intense cardinal-red; rich and glowing.

Uhland. A deep, glowing carmine; one of the richest.

Wallace. Deep orange, with carmine shadings.

Wieland. A fine large free flowering rosy crimson; entirely distinct.

Roots, 10 cents each; \$1.00 per doz.; \$8.00 per 100. Set of 32 Standard Varieties for \$2.50.

DECORATIVE DAHLIA, ADMIRAL DEWEY

Four New Decorative Dahlias.

Catherine Duer. A strong growing free flowering variety which originated at Newport, R. I., where it has become very popular on account of its bright crimson scarlet color, which lights up especially bright when used in decorations under artificial light. Roots, 25 cts. each; \$2.50 per dozen.

Frank L. Bassett. Entirely distinct in color, which is of a bright royal purple, shading to blue; the nearest approach to a blue Dahlia yet introduced, and an attractive, well-formed flower. Roots, 15 cts. each; \$1.50 per dozen.

Pendent. An extremely early and profuse blooming, bright crimson-maroon, produced on long graceful stems. Roots, 15 cts. each; \$1.50 per dozen.

One each of the Four Giant Dahlias for \$1.00.

Five Grand New Show Dahlias.

Black Diamond. The largest and most perfect of its color yet introduced; almost jet black when first expanding, changing to a velvety black maroon. Roots, 15 cts. each; \$1.50 per doz.

Eureka. A fine large, deep rose-color with quilled petals, of perfect form. Roots, 15 cts. each; \$1.50 per dozen.

Philadelphia. This strikingly reminds one of the well-known famous Chrysanthemum of the same name, a creamy yellow with deeper shadings towards the centre, a perfect ball in shape. Plants ready April 15th; 35 cts. each; \$3.50 per dozen.

Pink Dandy. A pure pink "sport" from the fancy variety of this name; valuable for cutting. Roots, 15 cts. each; \$1.50 per doz.

White Dandy. This promises to be the ideal white show Dahlia; it is a pure white sport from Dandy, producing perfectly shaped flowers, like its parent, on fine long stems, which will make it invaluable for cutting. Plants ready April 15th. 50 cts. each; \$5.00 per dozen.

We will furnish one each of the 5 New Show varieties for \$1.25.

Dahlia Seed.

We have all the best types saved from select stock. See page 5.

New Single Dahlia "Twentieth Century."

No single Dahlias ever created such a sensation or was received with such popular favor as this, and it is well worthy of the praise bestowed upon it. It is entirely distinct from all others, and ranks high not only as a free-flowering plant for the garden but as a cut flower, holding a place alongside the finest Roses.

The plant is of free branching habit, flowering early, profusely and continuously throughout the season, producing its flowers on stems 3 feet long, and which, after cutting, keep in perfect condition for days. They measure 4½ to 6 inches in diameter, and early in the season are an intense rosy crimson tipped with white and having a white band around the disc. As the season advances they become lighter, until they are almost a pure white suffused with soft pink; not variegated, but blended in the most beautiful manner. Roots, 20 cents each; \$2.00 per doz.; \$15.00 per 100.

Twelve Choice Single Dahlias.

- Ami Barrilet.** Pure garnet; very rich; free-flowering.
Anemone. Pure white; early and free.
Annie Hughes. Carmine lake, with yellow disc.
Blackbird. Black velvety-maroon, with a bright red spot on each petal.
Fashion. Crimson-maroon, darker shadings.
Geo. Boreman. Deep glowing carmine, with a broad band of orange-scarlet through each petal.
Juno. White, tipped bright rose; yellow disc.
Lawrence Kramer. Brilliant rose-pink of a pleasing shade.
Mrs. Bowman. Solferino; a fine large flower.
St. George. A fine, pure yellow, 3 to 4 inches across.
Sunset. Yellow, old gold and salmon beautifully blended.
Wildfire. The purest, richest scarlet.
 Roots, 10 cents each; \$1.00 per doz.; \$8.00 per 100. Set of 12 varieties for \$1.00.

Six Grand New Single Dahlias.

- Advancement.** Fine deep ruby red, rose halo and yellow centre. Roots, 25 cents each; \$2.50 per doz.
Ami Downie. A very rich garnet; an improvement on that favorite red Ami Barrilet. Roots, 35 cents each; \$3.50 per doz.
Danish Cross. Flowers large and perfect in outline, of a rich carmine with a broad band of white through the centre of each petal; very striking and effective. Roots, 30 cents each; \$3.00 per doz.
Gaillardia. Golden yellow, with a broad red band around the golden disc; named for its striking resemblance to *Gaillardia grandiflora*. Roots, 15 cents each; \$1.50 per doz.
Lustre. Bright cheerful, rosy-pink, shading to blush at the centre; very pleasing. Roots, 20 cents each; \$2.00 per doz.
Striking. Deep garnet, each petal with a white spot on the tip, really a single form of Frank Smith. Roots, 35 cents each; \$3.50 per doz.

New Century Single Dahlias.

These varieties have all originated from the Dahlia Twentieth Century, and retain all of the characteristics of that popular sort except in color, of which we now offer six distinct types.

- Crimson Century.** Rich, deep, velvety crimson, shaded maroon, lightly tipped with rose and rose halo around a yellow disc. Plants ready April 25th. 50 cents each; \$5.00 per doz.
Pink Century. Delicate shell pink, slightly suffused with clear soft pink. Plants ready April 25th. 75 cents each; \$7.50 per doz.
Scarlet Century. Pure scarlet with yellow disc, 5 to 6 inches across. Plants ready April 25th. 50 cents each; \$5.00 per doz.
White Century. Pure white with yellow disc, large overlapping petals of good texture; lasts even better as a cut flower than the original Twentieth Century. Plants ready April 25th. 50 cents each; \$5.00 per doz.
Leone. Pink early in the season, deepening to rosy-crimson as the season advances. Divided roots, 35 cents each; \$3.50 per doz.
Record. Ground color yellow; each petal flamed and washed with scarlet. Plants ready April 25th. 35 cents each; \$3.50 per doz. The set of 6 Century Dahlias for \$2.50.

Collerette Dahlia. President Viger.

An entirely distinct type of Single Dahlias which must be seen to be appreciated; the peculiarity consists in the flower having a row of short petals around the disc which are of an entirely different color from the rest of the flower, the petals being of a rich claret color shading lighter towards the edges, with a pure white collar, occasionally suffused rose. Roots, 20 cents each; \$2.00 per doz.; \$15.00 per 100.

Eupatorium Vernale.

A valuable winter flowering plant, which received a certificate of merit from the Royal Horticultural Society of London, before which it was shown in February, 1903. Unlike most other varieties of *Eupatorium*, nearly all of which are tall growing which makes them useless for pot plants, *E. Vernale* is of dwarf, compact growth, never exceeding two feet in height, making an excellent pot plant for the window garden or conservatory. Its flowers, which are produced during January and February, are tinted pink when first opening, changing to a pure white when fully matured. They are profusely produced in much branched terminal corymbs, eight to ten inches in diameter.

Ready in April. 25 cents each; \$2.50 per doz.

Echeverias.

- Secunda Glauca** . . . 75 cents per dozen; \$6.00 per 100.
Metallica 20 cents each . . . 2.00 per doz.
Sanguinea 15 cents each . . . 1.50 "

New Dwarf Coral Plant.

(*Erythrina Christa-Galli Compacta*.)

The Coral Plant has always been a favorite on account of its brilliant and interesting flowers, but its tall growth was an objection to its general cultivation, it frequently attaining a height of 6 feet before blooming. In this new variety we have a plant that is not only dwarf—it did not exceed 30 inches in our trial grounds last summer—but is also of branching habit, and each branch is terminated with a spike of flowers. These are of a brilliant crimson-scarlet, and are produced from early in July until frost; a plant that we can recommend for every garden. After frost the plants may be lifted and stored in a dormant condition through the winter in a dry cellar, covering them with dry soil or sand. Extra strong plants, 30 cents each; \$3.00 per doz.

Eucharis Amazonica.

A nice lot of strong bulbs in 3-inch pots.
 20 cents each; \$2.00 per dozen; \$15.00 per 100.

Eurya Latifolia Variegata.

An evergreen shrub with dark green foliage, which is beautifully variegated with creamy white; good plants in 5-inch pots, 50 cents each.

Ficus Radicans Variegata.

A pretty variegated trailing variety. An admirable plant for the warm conservatory. The leaves are bright green, freely and irregularly margined with white, the variegation sometimes extending to nearly the entire leaf. 35 cts. each.

Ficus Repens.

Strong 3-inch pots, \$1.25 per doz.; \$10.00 per 100.

Ficus Lutescens.

The Mistletoe Fig or Rubber Plant.

A new species which is especially interesting on account of its free prolific fruiting qualities, it bearing at each leaf axis a small fig-shaped berry, which at first green changes to a pale yellow. The foliage is small and of a dark green color, the whole plant reminding one of a branch of mistletoe. It should make an excellent subject for the window-garden.

Fine Ferns.

Nephrolepis Scottii.

The New Boston Fern That Has Come to Stay.

In this new variety, we believe we have a Fern which will finally take the place of the Boston Fern. This is a strong statement, but one which we are certain will be fully realized. To sum up its merits briefly, it can, under the most ordinary treatment, be grown into an ideal specimen of compact shape, which in the ordinary Boston Fern could only be accomplished with the most careful culture, and by giving the plants a large amount of room. Its natural, compact habit admits of almost double the number of plants to be grown in the same space as the regular Boston Fern. We recommend this for extensive planting, as we are certain that you will not meet with the same disappointment as in some of the new varieties introduced within the last few years, but that you will find this a profitable investment, and a plant that will appeal to your customers on account of its compact, symmetrical and graceful form.

We offer a large stock at much reduced prices.

The New Tarrytown Fern.

Nephrolepis Piersoni Elegantissima.

This is a sport from the Pierson Fern, in which the plump peculiarity of the original form is even more distinctly developed than in the original, the side pinnæ being again subdivided and standing at right angles to the midrib, makes both sides of the frond equally beautiful, while, at the same time, the plant is of much more compact habit, growing only one-half as tall, but with the fronds nearly twice as wide, making it a much more desirable plant for all purposes.

Young plants from 2 1/4-inch pots will be ready for delivery in February, while the larger sizes can be furnished at once.

THE NEW DWARF BOSTON FERN. NEPHROLEPIS SCOTTII

Adiantum Bensoniana.

A most beautiful Maidenhair, with large fronds and deep green pinnæ, which, while closely overlapping, is not so dense as to make the frond appear crowded. It makes a handsome specimen plant. 3-inch pots, 25 cts. each; \$2.50 per dozen.

Adiantum Croweanum.

The New Maiden-hair for Cutting.

Probably no fern is so well and so favorably known in cut flower centres, where it finds ready sales in preference to and at higher prices than other forms of Maidenhair.

Its principal points of merit are its strong vigorous growth, very long stems and remarkable keeping qualities.

We offer strong 3-inch pot plants, \$2.50 per dozen; \$15.00 per 100; \$125.00 per 1000.

Cibotium Schiedei.

This is undoubtedly the finest of all Ferns for decorative purposes, and, though appearing very soft, is in fact very hardy, as has been demonstrated by the leading decorators throughout the country, succeeding admirably as a house plant. It possesses a graceful and delicate appearance that is found in no other plant. It is a variety that is always scarce and difficult to obtain.

7-inch pots \$2.00 each.

Platyceriums. (Stag-Horn Ferns.)

These are always interesting on account of their curiously-shaped foliage and peculiar habit of growth.

Alcicorne. The best known species, foliage not as large as in most others, but very interesting. 75 cts. each.

Grande. This interesting variety is always scarce. Strong plants, \$2.00 each.

Hilli Majus. A large-leaved form with broadly-lobed pinnæ, \$1.00 each.

Stemmaria. Very large deeply-lobed pinnæ, \$2.00 each.

New and Standard GERANIUMS

Grand New Single Geranium "Telegraph."

The most distinct introduction in this line for many years; it has been thoroughly tested for four years by the originator, and it is likely to become a standard, both for bedding and for winter-flowering in the winter garden or conservatory. It is a strong, robust grower, with dark green foliage, and both truss and flower of mammoth size, of a most pleasing, rich deep orange cerise 1/2-inch pots, 25 cents each; \$2.50 per doz.; \$15.00 per 100

New Double Geraniums for 1905.

A. Raymond. Rosy scarlet with fine white eye; very large.
Cratere. Very large, full, open flower, carmine-red border, with violet mauve veined centre.

Double Dryden. A counterpart of the single-flowering Dryden, light fiery scarlet, flamed white at the centre.

Flamme Poitevine. A robust but dwarf grower, at all times completely covered with very large flowers; rose vermilion, brilliant in color, and velvety in texture.

Mme. A. Charmet. A beautiful fancy sort of a bright rose, marbling out to white on the edge of the petals.

Patrie. Very large petals of porcelain white, with a fine thread of bright red, laced along the edge, extra fine.

15 cents each; the set of six for 75 cents.

New Single Geraniums for 1905.

M. Javoi. Large circular floret of glistening light scarlet, flamed with pure white at the centre.

Marquis de Pins. A very free-flowering dwarf variety, with large flowers of very bright carmine-rose.

President de Lasseuse. Flower, violet solferino, with blue shadings the two upper petals marked red at base, unique and showy.

Princess Mafalda. A fine grower and free bloomer, large flowers with centre and edges white, with large halo of salmon apricot, unusually fine.

Qui Vive. Very large florets, of magnificent orange scarlet, distinct from all reds.

Voie Lactee. One of the most beautiful white varieties, with large round flowers.

15 cents each; set of six for 75 cents.

NEW GERANIUM "TELEGRAPH"

Six Double Geraniums of 1903-1904.

Guitare. Centre, bright pink, shading to white on the edges, very bright and distinct.

M. L. Breton. Flowers very double, of mammoth size and beautiful form; a brilliant but soft rosy scarlet with white eye.

Mathieu de Dombasle. Centre aurora salmon, bordered in cream-color, semi double.

Princess Olga Altieri. Exceptionally large florets, centre, tender rose brightening towards the edges.

Sesostris. Beautiful rosy carmine marbled in white.

Virtuose. A bright salmon pink of a deep shade, fine truss and florets.

10 cts. each; \$1.00 per dozen; sets of 6 for 50 cents.

Twelve Standard Doubles.

Alphonse Riccard. Bright vermillion scarlet; large florets.

Beaute Poitevine. The best semi-double salmon pink bedder.

Bruante. Standard scarlet bedder.

Jean Viaud. Bright rosy pink, with large white eye.

John Doyle. A vigorous-growing rich scarlet variety.

La Favorite. Fine double white bedder.

Mme. Charlotte. A magnificent large flower; color luminous rose

Mme. Jaulin. Delicate pink with white border, a pretty color combination.

Marquese de Montmort. Deep brilliant carmine-purple.

Marquis Castellane. A combination of two shades of red.

Miss Frances Perkins. A charming shade of pink.

S. A. Nutt. One of the best rich dark crimson bedders.

Hydrangea Hortensis Rosea.

Though first introduced in 1885, the merits of this pretty Hydrangea were not recognized until last spring, when an extensive grower of flowering plants for the New York market prepared a number of plants for the Easter demand. These met with much favor, its pretty live rosy-red color adapting it especially for this purpose. It is a variety which is certain to meet with favor, and should be grown extensively along with the other sorts.

THE CRIMSON FOUNTAIN GRASS

Crimson Fountain Grass.

(*Pennisetum Marcrophyllum Atrosanguineum*.)

This new plant, an introduction from New Guinea, is without question a most valuable addition, not only to our list of beautiful ornamental grasses, but to bedding plants. Its habit of growth is strong and vigorous, yet most elegant and graceful; the foliage which is gracefully recurved, is $1\frac{1}{4}$ inches wide, of a pleasing, dark metallic, coppery bronze, which, when at its best, during mid-summer and fall, far surpasses in richness the finest of the bronze leaved Cannas—a veritable crimson fountain. When grown as a specimen in the border or on the lawn, and allowed to grow without cutting back, it attains a height of about 4 feet, the ends of the shoots being terminated by tawny crimson plumes 10 to 12 inches long. By an occasional cutting back the plants can be kept, if desired, at a height of 2 to 3 feet. Interspersed with other ornamental grasses, this new *Pennisetum* will add a life and color hitherto unobtainable. While as an edging or border to a bed of Cannas or *Caladium Esculentum* it stands in a class by itself. The plants, when set out in early spring, do not show their rich coloring, which, however, quickly develops when planted in the open bed or border.

We are offering the plants at a low price in order to permit its use on an extensive scale.

Ready about the middle of April, 15 cents each; \$1.50 per dozen; \$10.00 per 100.

Pennisetum.

Rueppelianum. (*Purple Fountain Grass*.) A beautiful annual ornamental grass, growing about $2\frac{1}{2}$ feet high, producing long, graceful purplish plumes; a very effective plant to border a bed of Cannas or Hardy Grasses. $2\frac{1}{4}$ -inch pots, ready May 1st, 75 cents per dozen; \$5.00 per 100.

Rhododendrons for Forcing.

See Shrubs, pages 52 and 53.

Retinispora Sanderi.

A new blue conifer, which is not only a valuable addition to our list of hardy plants, but which will prove indispensable in any planting of hardy evergreens, either in massing or in single specimens. In habit it is quite distinct, its growth being dwarf, dense and cushion-like, forming beautiful semi-globular specimens of a most pleasing and attractive blue color. Our illustration conveys a very good idea of its style of growth.

Good shapely plants, 8 to 10 inches high, 75 cents each; \$7.50 per dozen.

NEW ROSES.**Hill's New Red Forcing
Rose.
"Richmond."**

It is the best red forcing variety yet produced because

1st. It is of strong and rapid growth, more vigorous than any other forcing variety in commerce

2nd. It comes to perfection without special care or culture, and can be grown in the same soil and temperature and with the same treatment given to Bride and Maid.

3rd. It ships perfectly, as it can be cut very tight and develops as well off as on the bush.

4th. Has very near the same tone of color as Liberty, with more scarlet and does not blue with age.

5th. This variety is nearly a pure tea, being seeded from *Lady Battersea*, fertilized by *Liberty*, and as a result has shown no tendency toward going dormant in mid-winter, at which time the variety is at its very best.

6th. Produces freely throughout the year, long pointed buds on tall straight stems with elegant dark foliage.

7th. Is as easy to root and grafts as readily as Bride or Maid.

8th. Has as delicious a fragrance as American Beauty.

Was awarded the silver cup at the World's Fair for best seedling rose and special silver cup at Chicago for best seedling. Prices, own root—100 plants for \$30; 250 for \$70; 1000 for \$250. 500 at 1000 rate.

Ready for delivery April 1st.

**New Hybrid Tea,
Rosalind Orr English.**

This pink seedling from Mme. Chatenay is unapproached in color; the bud is pointed, quite full, borne on long slender stems, beautifully set with foliage, free in growth and bloom; the flower is very beautiful from its earliest bud form till fully expanded. Was awarded certificate of merit at the Chicago Show. \$25 per 100; \$200 per 1000.

Ready for delivery April 1st.

New Hybrid Tea Rose, Ideal.

A "sport" from the favorite La France, which it closely resembles in every way except color, which is a bright deep pink that does not become "washed out" even under the most unfavorable conditions. The plant is a strong, vigorous grower, very free-flowering, flowers of good size and deliciously scented, and we believe it will become even more popular than its famous parent both as a forcing variety under glass as well as for the open ground. An ideal Rose in every.

5-inch pots, 30 cents each; \$3.00 per dozen.

Killarney.**The New Hardy Irish Everblooming Hybrid
Tea Rose.**

The colored illustration in our Garden Book for 1905 does not do justice to the soft, but rich color, of this beautiful new Rose of Dickson's, which on account of its many good qualities is certain to become a general favorite. It has had a thorough trial in this country, and all who have seen it agree that both as a Rose for outdoor culture as well as for growing under glass it has a brilliant future. It is perfectly hardy, having withstood the severe winter of 1903 to 1904 in this latitude without protection; in growth it is strong and robust, and as free flowering as any Rose we know of. In color it is a sparkling brilliant imperial pink. The blooms are large, the buds long and pointed, the petals very large and of great substance, and just as handsome in the full blown flower as in the bud form.

We offer strong two-year old imported budded plants, 50 cents each; \$5.00 per dozen; \$40.00 per 100.

BABY OR EVERBLOOMING DWARF CRIMSON RAMBLER ROSE.

The New Bedding Rose.**The Baby Rambler,**

or the Everblooming Dwarf Crimson Rambler.

Mme. Norbert Levavasseur.

This is without question the most important addition to our list of dwarf bedding Roses for many years, and a Rose which is destined to become more popular for bedding purposes than any variety now grown.

It is a cross between Crimson Rambler and one of the free flowering Polyantha varieties, producing large trusses of bright crimson flowers similar to the Crimson Rambler, but is not of climbing habit, it forms a dwarf compact bushy plant not over 18 inches high, with clean dark green foliage which is never attacked by disease or insects and is perfectly hardy, but the most unique and novel feature about it is the phenomenal freedom with which it produces its flowers, in this respect it outclasses any Rose of any type known, the plant is never out of bloom, being one of the first to flower in spring, and continuing to bloom without interruption until stopped only by the most severe frost late in the autumn, and if grown under glass it will flower the year round.

We offer strong one-year old field-grown plants, 50 cents each, \$5.00 per doz.; \$35.00 per 100.

Paul's New Single Climbing Rose.

Waltham Rambler.

An unique and charming single flowering Climbing Rose with extra large clusters of deep pink flowers, with lighter centre and golden anthers as dainty and pretty as can be; it is of English origin, and has attracted much attention during the past two seasons at the various exhibitions at which it was shown. The plant is of strong vigorous habit, absolutely hardy, and a most excellent variety to plant wherever a strong climber is desired; the pretty single flowers produce a pleasing and brilliant effect entirely distinct from all other types.

Extra strong two-year old plants, 50 cents each; \$5.00 per dozen.

NEW ROSES.—Continued.**Frau Karl Druschki.****New White Hybrid Perpetual Rose.**

This new hardy Rose is of German origin, and was first disseminated in 1900, and has since won many prizes, and made many friends. It is the **ideal hardy white Rose**. Its flowers, which are very large, are perfect in form and snow-white in color, with large shell-shaped petals, forming a beautiful flower. The plant is a strong, vigorous, healthy grower.

Strong two-year old plants, \$3.50 per doz.; \$25 00 per 100.

New Rambler. Philadelphia.

A cross between Crimson Rambler and the Hybrid Perpetual Victor Hugo, it differs from the old variety in being of a much deeper, brighter and more intense color which never fades out, perfectly double to the centre. It will not only prove a valuable addition to our hardy climbing Roses, but for forcing purposes for Easter we feel certain that it will entirely displace the Crimson Rambler.

Strong 2-year-old plants, . . \$3 00 per doz.; \$25 00 per 100

Select List of ROSES.

The roses which we here offer are field grown stock either American grown or plants that have been imported from England and Ireland. We handle no Holland grown Roses.

These plants are all potted up during December and January, stored in cold houses so that they break away naturally in spring, making this the best possible stock for selling to the retail customer.

The prices noted are for strong plants in 5 and 6-inch pots (according to the growth of the variety) for delivery during April and May, and while we will make shipments earlier if requested we prefer to book orders for these months only.

New Aquilegia Clematidæ Hybrida.**The Clematis-flowered Columbine.**

While we have not flowered this new type of Columbine, we have no hesitation in recommending it as an introduction of the famous California hybridizer, Luther Burbank, who in describing it says, "A hybrid variety of the Columbine from which the spurs have been eliminated, giving the flower a flat Clematis-like appearance, in a great variety of pleasing colors and shades, with many of unusual size. While not all of the flowers show the true shape, all are a combination of colors from many species which are certain to please. They are as hardy as the common Columbine, and once planted, take care of themselves."

15 cents each; \$1.50 per doz.

Aquilegia. (Columbine.)

Blanda. A fine pure white.

Caryophylloides. A pretty strain of variegated varieties.

Canadensis. Our native Columbine, bright red and yellow. 3-inch pots.

Chrysanthia. The beautiful golden-spurred "Columbine."

"**Alba.** A pretty, white-flowered form of the above.

Californica Hybrida. An extra fine mixture.

Cœrulea. The true blue Rocky Mountain Columbine. 3-inch pots.

Glandulosa Major. Blue and white.

Haylodgensis. Hybrids of the Rocky Mountain Columbine in various colors.

Nivea Grandiflora. Large, pure white.

Skinneri. Scarlet, with greenish tips. Very distinct.

Vulgaris Flore Plena. The European violet-blue Columbine.

Except where otherwise specified, strong, 4-inch pots, 75 cents per dozen; \$6.00 per 100.

Arabis. (Rock Cress.)

Alpina. Early flowering, single white.

"**Flore Plena.** A double white form.

"**Superbus.** Very free, blue.

3-inch pots, 75 cents per dozen; \$6.00 per 100.

Aster Grandiflorus.

This variety, as grown by us, is the most valuable of all hardy Asters, not only on account of its large violet-blue flowers, but because it is the latest of all to flower, continuing in good condition until late in November. 3-inch pots, \$2.00 per doz.; \$15.00 per 100.

Hardy Asters. (Michaelmas Daisies.)

The hardy Asters are among the showiest of our late fall-flowering plants, and give a wealth of bloom at a season when other flowers in the hardy border are generally wanting.

Burbank's New Shasta Daisies.

The original Shasta Daisy, introduced some four years since, has been steadily growing in favor, and is now included in almost every collection of hardy perennial plants. In the three new varieties here offered Mr. Burbank states that the effort has been to increase the vigor and perpetual flowering quality of the original strain, all of which has been wonderfully developed in the set in this collection:

Alaska. The whole plant and flowers are gigantic, but compact and graceful in every respect, the flowers average 4 1/2 to 5 inches across with from 38 to 42 wide petals, which are of a glistening white, and a very small disc.

California. Similar to Alaska, but the buds and half-opened flowers are of a pleasing pale lemon yellow, with two rows of petals. These, when a day or two old, gradually change to pure white.

Westralia. This is distinguished by its branching habit, well-grown plants growing from 3 to 4 feet high, and nearly as much through. Newly opened flowers are of a cream color, changing to pure white, and from three to four inches in diameter.

| Simplex. Erroneously sold under the name of Actæa Japonica during the past four years, but one of the most valuable of all on account of its extreme late flowering, beginning to open its flowers in September, it is not in full perfection until near the middle of October, and continues in good condition throughout the month, a time when flowers of all kinds are scarce in the garden. Its flowering stems are from 2 1/2 to 3 feet high, and are terminated with a dense cylindrical spike of white flowers, which when cut last in perfection a long time. Gypsophila Paniculata Flore Plena.**The Double-flowering Baby's Breath.**

This double-flowering Gypsophila is probably the most important addition to our list of hardy plants this season. The single-flowered form has always been a favorite on account of its airy graceful spikes of flowers which are indispensable in a naturally arranged bunch of flowers. Add to this the pretty, little double rosette-like flowers of this new form, which are produced in much branched panicles of from 3 to 3½ feet high, we have a plant that is not only valuable, for cutting purposes, but a most desirable addition to the hardy border.

Helenium Grandicephalum Cupreum.**The New Copper-Colored Sneezewort.**

Nearly all varieties of this section of hardy perennial plants being yellow in color, a deviation from this at once attracts attention, and, we were much pleased, during the past summer, with this new variety, which produces coppery-red flowers, about 2 inches in diameter, and of a shade at once rich and pleasing. The flowers are freely and continuously borne from the middle of June until the end of September; a distinct and pleasing novelty for the hardy border. 25 cents each

Three Handsome Hemerocallis.

The three varieties here offered are great improvements upon the well-known yellow Day Lilies.

Aurantiaca. An exceedingly free flowering variety, with very large trumpet-shaped, bright, orange-yellow, sweet-scented flowers on 2½ to 3 feet high stems in June and July.

Aurantiaca Major. A Japanese variety of strong, vigorous habit and very free flowering, with large trumpet-shaped, sweet-scented, deep orange flowers. Requires protection.

Florham. Produces very large, golden-yellow sweet-scented, flowers during June and July, on 3 feet high stems; remarkably free flowering. This variety is of American origin, and has been under our observation for several seasons; we believe it to be the best of all Hemerocallis.

PRICE OF STRONG ROOTS, JAPANESE IRIS.

Named Sorts (order by name or number), 15 cents each; \$1.50 per dozen; \$10.00 per 100; set of 24 varieties for \$3.00.
Choice Mixed Varieties. \$1.00 per dozen; \$8.00 per 100.

Various Types of Iris.

- Ochroleuca.** (*Gigantea*.) Grows four to five feet high with white flowers similar to *I. Hispanica*. \$2.00 per dozen; \$15.00 per 100.
- Ochroleuca** (*Gigantea*) **Sulphurea.** A pale sulphur-colored form of the above. \$2.00 per dozen; \$15.00 per 100.
- Siberica Orientalis.** \$1.00 per dozen; \$8.00 per 100.
- Pseudo Acorus** 1.00 " 8.00 "

Iris Germanica. (German Iris.)

- Asiatica.** Very large, deep purple blue.
Donna Maria. White, lower petals shaded lilac.
Florentina. Very free flowering, sweet scented, white.
Gracchus. Pale yellow, prettily marked with purple.
Lord Salisbury. Purple and bronze.
 Mme. Chereau. Pearly white, daintily edged with lavender.
Mrs. Neubronner. Deepest yellow.
Othello. Intense, rich, deep purplish blue.
Penelope. White, tinged and veined with lavender.
Plumeri. Deep coppery bronze, very early and free.
Spectabilis. An early and free deep purple.
Tineæ. Large deep blue, shaded lilac.
 75 cts. per doz.; \$6.00 per 100.
- Choice Mixed German Iris.** 50 cts. per doz.; \$4.00 per 100.

New Hybrid Alpine Iris.

An entirely new and distinct race, the result of over 20 years' work in hybridization by an enthusiastic specialist on the Island of Guernsey. All are perfectly hardy and useful, not only in the hardy border, but also for forcing, as with the minimum of heat they can readily be flowered in January and February.

- Charmer.** Light cream color.
Haydn. Porcelain blue, primrose beard.
Josephine. Pure white.
Meteor. Rich reddish-purple with yellow beard.
Milton. Rich yellow, lined maroon, orange beard.
Stewart. A good pure yellow.

20 cts. each; \$2.00 per doz.; \$15.00 per 100.

The set of six varieties for \$1.00.

Iris Pumila Hybrida.

A cross between the dwarf early flowering *I. pumila* and the large-flowering *I. germanica*. Their period of flowering is a trifle later than the pumila section, with flowers almost as large, showy and attractive as the German Iris. Our trials of these varieties in the hardy border the past season, as well as earlier forcings under glass, have fully convinced us of their desirability for both purposes.

- Cyanea.** Rich royal purple, with blackish shadings.
Eburna. Pure white, with creamy-white shadings.
Florida. A beautiful lemon-yellow, shaded darker.
Formosa. Upper petals deep violet-blue, lower petals light violet.
 \$1.50 per doz.; \$12.00 per 100.
 The set of four varieties for 50 cents.

Papaver. (Poppy.)

Oriental. (*Oriental Poppy*.) It is not possible to satisfactorily transplant Oriental Poppies from the field in the spring. The stock which we offer is all one-year old field grown, which was lifted and potted up into 4-inch pots during August when the plants were dormant; these are now well rooted and established in pots so that they can be transplanted without any check to their growth. 75 cents per dozen; \$6.00 per 100.

Nudicaule. (*Iceland Poppy*.) Strong 4-inch pot-grown plants in finest mixture. 75 cents per dozen; \$6.00 per 100.

Pardanthus. (Blackberry Lily.)

Sinensis. Strong 4-inch pot plants. 75 cts. per doz.; \$6 00 per 100.

Pentstemon Grandiflorum.

One of our handsomest native species which is being introduced into Europe as a new plant to cultivation, of which distinction it is well worthy, not only being rare but at the same time very showy. The flowers which are produced during the spring months in great profusion on stems 2 to 2½ feet high are of a purplish blue color, very large and attractive. Strong, 4-inch pots, 15 cts. each; \$1.25 per doz.; \$10.00 per 100.

HARDY PHLOX PANTHEON

Perennial Phloxes.**One of our Leading Specialties.**

Our collection of Phloxes consists of strictly first-class varieties, distinct and decided colors. The plants we offer are field-grown, were divided in the fall, with from three to six eyes; they will make strong plants and a fine show of flowers this season. This stock is much superior to young, newly propagated plants such as are generally sent out in the spring of the year.

- Aquillon.** Bright deep pink, crimson eye.
Bridesmaid. Pure white with large crimson eye.
Beranger. White, suffused pink, crimson eye.
Blanc Nain. Dwarf, pure white.

EARLY FLOWERING HARDY PHLOX.

Phlox Suffruticosa.

This type while it does not contain the bright rich colors of the standard (Decussata) sorts is invaluable on account of its early flowering habit, they commencing to flower fully six weeks earlier.

Andrew Kerr. Large truss, white, suffused throughout with deep rosy lilac.

Dr. Hornby. White, delicately suffused with light lilac.

Indian Chief. Deep magenta with crimson eye.

Miss Lingard. A grand free flowering white.

Leaman. Rosy lilac.

Ringleader. Magenta, crimson eye.

The above will be supplied only in strong young plants of this winter's propagation from 2¼ inch pots. 75 cents per dozen; \$6.00 per 100.

Phlox Subulata.

Moss Pinks or Mountain Pinks.

Alba. White.

Atropurpurea. Purplish rose.

The Everblooming Hardy Crimson Pink.

"NAPOLEON III."

This charming hardy Pink is by no means new. We have been growing it for many years. Although we have sold it for sometime locally it was only in the past year that we have had sufficient stock to enable us to offer it in our Garden Book in a general way, and, as a result, many thousand plants of it were distributed during the past season, and the many favorable comments received from pleased customers justifies us to believe, that of all the hardy plants distributed by us in the past years, that none has ever given such satisfaction as this everblooming Dianthus. The smallest plant set out in spring will form a compact clump, rarely exceeding ten inches in height, which, from the middle of June until severe freezing weather is a mass of full, double, brilliant, blood-crimson, delightfully clove-scented flowers.

Field grown plants from 4-inch pots, \$1.25 per dozen; \$10.00 per 100.

Young plants from 2¼ inch pots ready April 15th. \$1.00 per dozen; \$8.00 per 100.

Hardy Pinks—Standard Varieties.

Primula Veris Superba.

(New Giant Hardy Primrose.)

We introduced this Giant English Primrose five years since and we are now more than ever impressed with its value.

In size of flower, it is fully three times as large as any other hardy Primrose, the average size of the flower being over one inch, and we have seen them frequently measuring over two inches, with trusses of bloom 6 inches in diameter. It is perfectly hardy, grows from 10 to 12 inches high, and begins to flower earlier and continues in bloom longer than any other Primrose. This alone is sufficient to insure its popularity as a plant for the garden; but its greatest merit consists in the fact that it is not only one of the easiest plants to force, but a plant that will sell on sight when brought into flower during the early spring months, and especially so when grown as an Easter plant.

Strong plants 75 cts. per doz.; \$6.00 per 100; \$50.00 per 1000.

Primula Cortusoides Sieboldi.

These are not so well-known as they deserve; they are of free, vigorous growth, and can be flowered in pots in early spring, and respond quickly when placed in a temperature of 50 degrees, forming pretty pot plants in a short time.

Alba magnifica. Large, pure white fringed flower.

Arthur. Beautiful salmon rose.

Delicata. A pleasing shade of pink.

Sirius. Rich crimson rose; with white eye.

New Brilliant Stone Crop.**Sedum Spectabile Atropurpureum.**

Like the type, "*Sedum Spectabile*," this variety forms an erect bushy plant, about 18 inches high, with broad oval light-green foliage, and produces during September and October, gigantic showy heads of handsome flowers, which, however, in this new variety, are of a deep rosy-crimson color; a decided acquisition and a plant that will be indispensable in the hardy border.

Spiræa Aruncus Kneiffi.

Although introduced some four years since, this handsome variety of *Meadow Beauty* is still practically unknown. It is perfectly hardy and should find a place in a damp position in the perennial border, where, under favorable conditions, it will form a plant 3 to 4 feet high, with finely divided, graceful, fern-like foliage and great sprays of feathery, silver white flowers in June and July. 35 cents each; \$3.50 per dozen.

Stokesia Cyanea.(*The Cornflower Aster or Stokes' Aster.*)

One of the most charming perennials in our collection, it grows from 18 to 24 inches high and produces its *Centaurea*-like 4 to 5 inch in diameter lavender blue flowers from early in July until late in October, even after frost has destroyed nearly all other out-door flowers. It is of easiest culture, succeeding in any open, sunny position; not only is it desirable as a single plant in the mixed border, but it can also be used with good effect in large, solid masses, and at the same time is invaluable as one of the finest cut flowers. We have no hesitancy in saying that the *Stokesia* is the one most desirable hardy plant offered in our list.

The stock which we offer is all pot grown, being very strong plants in three-inch pots, which is the only satisfactory stock to supply to the amateur, and it must not be confounded with native collected plants.

Tritomas.

(Torch Lilies, Flame Flowers, or Red Hot Pokers.)

The Tritomas, especially the variety *Pfitzeri*, have during the past few years become most important among our list of bedding plants, and, when one considers how few flowering plants we really have that are suitable for massing in large quantities under our severe climatic conditions, outside of *Cannas* and *Geraniums*, there is little cause to feel surprised to see such an excellent new subject become at once so popular.

Pfitzeri. (The Everblooming Flame Flower.) The freest flowering variety in cultivation, with spikes from 3 to 4½ feet high and with heads of bloom over 12 inches long, of a rich orange scarlet, shading to salmon. 10 cents each; \$1.00 per dozen; \$6.00 per 100; \$50.00 per 1000.

Coralina. A dwarf variety, rarely exceeding two feet in height, producing freely medium-sized spikes of coral red flowers, shading to yellow. 10 cents each; \$1.00 per dozen; \$6.00 per 100.

Tritomas—Continued.

Mac Owani. A perfect little gem, growing two feet high and very free flowering, with rich deep coral red flowers. 10 cents each; \$1.00 per dozen; \$8.00 per 100.

Obelisque. (New) Chrome yellow flowers, in August and September on spikes 3½ to 4 feet high, very distinct. 25 cents each; \$2.50 per dozen.

Triumph. A remarkably strong growing variety, producing flower heads from 12 to 15 inches long, at the base of which frequently two or three small heads develop. The flowers are of rich, deep old gold. 75 cents each; \$7.50 per doz.

Uvaria Grandiflora. Rich crimson, shading to yellow, spikes 3 to 4 feet high, flowers in the Autumn. 10 cents each; \$1.00 per dozen; \$6.00 per 100; \$50.00 per 1000.

We will furnish one each of the 6 Tritomas for \$1.25.

CHOICE HARDY SHRUBS.

Hardy Azalea Mollis for Forcing and for Planting.

In the open border these are among the showiest of our very early flowering shrubs, producing their flowers early in May before the foliage appears, while for forcing for which purpose they are gaining popularity very quickly, they are very profitable as they can be handled at a minimum expense for heat and labor; and they should prove especially useful for Easter flowering this year, this holiday coming so very late. Many who have no special facilities for carrying the Indian Azaleas in a retarded condition could profitably handle this type which can be stored in the open until four weeks before being wanted, potting them up and bringing inside at that time; with this in view we have this season imported an extra quantity and we are in position to supply an exceptionally fine lot of nicely budded plants, 15 to 18 inches high. \$4.50 per doz.; \$35.00 per 100.

Hardy Ghent Azalea. (A. pontica.)

These are used extensively in out-door planting in connection with Rhododendrons and hardy shrubs, and are valuable for their bright colors and extreme hardiness. Good bushy plants, 15 inches high. \$4.50 per doz.; \$35.00 per 100.

Hardy Azalea Anthony Koster.

Though not new, this beautiful Azalea, which is one of the prettiest of the Mollis section, is yet but little known. Its flowers, which are of the most intense golden orange-yellow color, are of exceptional large size and are produced very freely early in May. The plant will be found most useful to plant in connection with Rhododendrons, or for the front row of the Shrubbery border, while it also responds quickly to forcing when grown in pots, and can readily be flowered during the late winter and early spring months, at which time it will be found valuable for conservatory and house decoration.

Strong bushy plants well set with buds, 60 cents each; \$6.00 per doz.

Hardy Japanese Azalea Yodogama.

This charming Japanese variety is a perfect gem for outdoor planting. It forms a strong bushy shrub, about 3 feet high, which in May is literally covered with semi-double lavender pink flowers of a shade which is at once distinct from all others, and very pleasing. We cannot recommend this shrub too highly.

Good plants, 80 cents each; \$9.00 per doz.

Two New Crested Altheas

Or Rose of Sharon.

The Altheas are especially valuable on account of flowering at a season of the year when comparatively few shrubs are in bloom; commencing to flower early in August, they continue until late in the fall, and in these new varieties we have an entirely distinct type, combining the free-flowering qualities of the single sorts, to which a crest of curled petals in the centre gives the appearance of a double flower, yet not crowded, thus displaying the crimson eye very distinctly, and, at the same time, showing a loose graceful flower entirely different from the old, heavy double forms.

Crested Beauty. Pure white, with brilliant crimson eye and snow-white crest.

Crested Pink. Soft pink, with pink crest and crimson eye. Strong plants 1½ to 2 feet high. 35 cents each; \$3.50 per dozen.

New Silver-Leaved Dogwood

Cornus Brachypoda Argentea Variegata.

An important addition to our all too short list of variegated-leaved hardy shrubs. This variety has foliage of large size which is of a dark green color, beautifully marbled on the edges with white, and, while the most of the variegated forms of Dogwood suffer from exposure to the sun, this variety delights in full sunlight, and is perfectly hardy. Good pot grown plants, 75 cents each.

AZALEA MOLLIS.

Deutzias for Forcing.

Gracilis Rosea. Identical with *Deutzia Gracilis* in general habit, but with flowers fully double the size of that graceful variety, to which is added the additional charm of being suffused with a delicate rosy tint just sufficient to relieve the dead white which is objectionable in the type, and which will undoubtedly place it in the front rank of shrubs for winter forcing.

Strong two-year old plants, suitable for 6-inch pots, \$1.00 per dozen; \$8.00 per 100.

Lemoinei. *Deutzia Lemoinei* is now a standard forcing variety, and when better known will no doubt entirely supplant *Deutzia Gracilis* for this purpose. Not only is it valuable for forcing, but it is equally good for the garden, being just as hardy as the type, while its flowers are three times as large, and are produced in broad-based cone-shaped heads of from 20 to 30 flowers each, which are of the purest white.

We offer strong two-year-old plants for forcing, suitable for 6 and 7-inch pots, \$1.00 per dozen; \$8.00 per 100; \$75.00 per 1000.

Hydrangea Paniculata Grandiflora.

We offer a grand stock of this most popular of all Shrubs.

Extra heavy, bushy plants, 24 to 30 inches high, \$1.25 per dozen; \$10.00 per 100.

Extra heavy bushy plants, 30 to 36 inches high, \$2.00 per dozen; \$15.00 per 100.

Standard or Tree-Shaped. An extra fine lot of heavy, well branched plants, \$4.00 per dozen; \$30.00 per 100.

Hydrangea Paniculata. (Type).

This must not be confounded with *Hydrangea Paniculata Grandiflora*, it being the original type from which the variety *Grandiflora* originated, and while not so well known as the last named variety, it is by many considered superior to it on account of the large flower heads having a less number of sterile flowers, which reduces the weight of the large heads of bloom, thus enabling the plant to carry its flowers more erect, and showing same to better advantage. The flowers are creamy white, and turn to a purplish red as they fade. A large block of these plants at our nursery last summer were much admired while in flower.

We offer strong bushy plants, about 24 inches high, \$3.50 per dozen; \$25.00 per 100.

Hardy Vines and Climbers.

AMPELOPSIS VEITCHII

Actinidia Arguta.

A most desirable rapid growing climber of neat growth with dark green foliage. \$2.25 per dozen; \$16.00 per 100.

Akebia Quinata.

New Large-flowered Red Clematis.—Ville de Lyon.

A red-flowering Clematis of the hybrid or large flowering type, has been a desiderata for a long time, and a number of varieties have been offered at various times, but until the introduction of Ville de Lyon, which was first shown at Paris in 1900, all have been lacking both in color and size as well as in constitution. In the variety now offered, we not only have a bright carmine color, but a plant which is as free-flowering, and of an equally strong growth, as the well known and popular blue Clematis Jackmani. 50 cents each; \$5.00 per dozen.

New Early Spring-flowering Clematis Montana grandiflora.

This is a perfect gem—a climber, which on account of its strong vigorous growth and grand display of flowers, so early in the season, when no other climbers are in bloom, is certain to meet with much favor. The plants of stronger growth than any other Clematis, and is not subject to the attacks of any kind of disease or insects, and will succeed under the most adverse conditions. Its flowers are snow-white Anemone-like, 1½ to 2 inches in diameter, and begin to expand frequently as early as the last week of April, continuing well through May, and are produced in the greatest profusion. The plant being literally hidden by the masses of bloom. Extra strong two-year-old plants, 35 cents each; \$3.50 per dozen.

Clematis Flammula Rubra Marginata.

The old Clematis Flammula or Sweet-scented Virgin's Bower, with its deliciously fragrant white flowers during midsummer, has always been a favorite. The variety here offered is a counterpart of its parent, except in color, each petal being edged with purplish crimson. A unique and desirable addition to our list of hardy climbers. Strong plants, 60 cents each; \$6.00 per dozen.

Large-Flowering Hardy Clematis.

We have again this season a fine stock of good, strong plants, two years old, own roots.

Boskoop Seedling. Extra large lavender.

Duchess of Edinburgh. Double pure white.

Fairy Queen. Pale flesh with a pink bar.

Gypsy Queen. One of the finest rich purple varieties.

Henryi. Finest large single white.

Jackmanni. The popular dark rich royal purple.

\$3.50 per dozen; \$25.00 per 100.

CLEMATIS MONTANA GRANDIFLORA

Jackman's New Hybrid Clematis.

An entirely new and distinct type, the result of crosses between *Coccinea* and *Star of India*. They combine all the good points of their parents, which, together with their distinct coloring and novel shape, make them valuable additions.

Countess of Onslow. A bright violet purple with a broad band of scarlet down the centre of each petal. Bell-shaped form.

Duchess of Albany. A beautiful bright pink, deeper down the centre. Campanulate in shape.

Duchess of York. A delicate and pleasing shade of pale pink, with a deeper tinge down the centre of each petal.
40 cents each; set of three varieties, \$1.00.

Clematis Integrifolia Durandi.

Of semi-climbing habit, growing about 4 feet high, and producing without intermission from early in June until late in fall, showy indigo-blue flowers 3 to 3½ inches across; 50 cts. each.

SEED IN BULK.

Dreer's Fairmount Park Lawn Grass. A good mixture of grasses, suitable for various soil conditions and does well even in small city grass plots, where the soil generally is stiff and heavy. It is also good on embankments, terraces, etc., Per bus. (20 lbs.), \$2.75; retails for \$3.50.

The "Dreer" Lawn Grass. For quickly producing a permanent, thick and velvety sward of grass, this brand of Lawn Grass cannot be excelled. It is the best mixture of grasses we sell for lawn-making, and will give satisfaction wherever sown. Per bus. (20 lbs.), \$4.00; retails for \$5.00 per bus.

Dreer's Evergreen Lawn Grass Seed. This special mixture produces beautiful and permanent lawns. It is made from our own formula, and composed of grasses which are adapted for the purpose of producing lawns which retain their rich green color and velvety appearance throughout the entire summer and fall. Per bus. (20 lbs.) \$3.25; retails at \$4.00 per bus.

Dreer's "Shady Place" Lawn Grass. Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places; for sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those as are well adapted for growing in shade. Per bus. (20 lbs.), \$4.00; retails for \$5.00 per bus.

Dreer's Golf Links Mixture. Per bus. (15 lbs.), \$2.15; retails for \$2.50.
